

Eliminate the Stress and Complexity of IT for Your Law Firm

Secure, high-performance cloud, cybersecurity and IT support built around how law firms work today.

Built to Support the Way Your Firm Operates

Afinety delivers a cloud-based, fully managed IT solution designed specifically for legal workflows. Known as Afinety Cloud Platform (ACP), our all-in-one service includes secure cloud desktops, built-in cybersecurity and expert legal IT support — so your team can stay focused on serving clients and growing the practice.

Why Law Firms Choose Afinety

“We decided to go with Afinety because they had the system, the security and the support that were the right fit. I trusted them, and we also liked the Amazon Web platform the Afinety system was based on. Afinety offered us a partnership and room to grow.”

— Susan Olson, CEO, Hawley Troxell

The Outcomes You Can Expect

Stronger Cybersecurity, Built In

Our platform includes layered protections — endpoint security, multi-factor authentication, email filtering and more — to keep client data safe and compliance on track.

Consistent Performance from Anywhere

Cloud-optimized desktops provide fast, reliable access to files and applications, whether you're in the office, remote or in court.

Less IT Burden, More Focus

We handle the day-to-day IT needs so your internal resources can concentrate on strategic work, not technical troubleshooting.

Scalable, Future-Ready Platform

Our cloud environment adapts to your firm's evolving needs — whether that means onboarding new attorneys or integrating new applications.

Legal App Support that Just Works

We host and support your existing legal software, handling updates, patches and performance issues so your team doesn't have to.

afinety.com

Legal-Specific Expertise That Runs Deep

- 35+ years exclusively serving law firms
- Trusted technology partner with deep experience across legal apps
- Proven success with complex migrations and hybrid work environments
- Dedicated support teams who understand compliance, urgency and confidentiality
