

From Medical Record Chaos to Clarity.

Turn stacks of medical records into clear summaries and chronologies *IN MINUTES*.

How We Help

InPractice helps legal and medical professionals cut hours from medical record review. Our AI transforms disorganized records into clear chronologies and summaries you can edit, search, and export. With flexible, pay-as-you-go pricing and no subscription required, InPractice takes the chaos out of record review and replaces it with insight and time-savings.

Why InPractice?

Because focus matters. We don't try to cover broad legal AI, we do one thing: medical record review. That focus means reliable results, faster insight into the facts that matter, and hours saved on every case. Trusted by hundreds of firms nationwide, InPractice offers pay-as-you-go pricing starting at \$.05/page — no subscription required.

How It Works

UPLOAD Your Records

Start a case and drag in your documents — it's that simple.

AI Goes to Work

InPractice is fast — we process 1,000 pages in under an hour.

REVIEW Your Summary & Chronology

Review, filter, and edit the results. You stay in control.
