APPLIED

▶ Customer Stories

Applied Systems is the world's largest insurance agency management platform. Their customers have trusted RMail email security for more than a decade. Now Applied Systems is building the newest RMail innovations – its AI-infused impostor email and human error protection suite plus dynamically simplified email encryption – into its main platforms, OEM-esque.

RMail™

Email Privacy & Compliance

SMART Email Encryption
Far beyond opportunistic TLS, RMail email encryption dynamically adapts to provide peace-of-mind with 100% end-to-end encryption, wire fraud protection, secure file sharing, auditable proof of fact of GDPR and HIPAA privacy compliance, and more. Elegantly easy; simple for recipient means happy sender.

Data Loss Prevention

Mutating the DNA of Data Leaks
Automatically sensitize users of their need to treat certain messages differently, seamlessly and in the flow of email and work. Empower your people and prevent data loss with AI-Infused and rule-based in-the-moment secure email recommendations.

Human Error Prevention

Intercepting the Human Instinct to Please
Nip wire fraud and impostor email threats with in-the-moment of sending insights and alerts. The RMail Human Error Prevention module detects impostor patterns and hazardous domains and alerts users just before they fall prey to the most sophisticated phishing, Business Email Compromise (BEC), ransomware, and other cyberattacks.

Secure Workplace Acceleration

Empower Your Email™
Swish right through the future of work without forfeiting security. Share large files, send documents for e-signature, transmit sender-authenticated invoices and more, all-in-one and with the benefit of RMail award-winning e-security technology.

Security Stack

Do More with Less
Choose inbound security gateway, in-the-inbox integrated cloud email security, outbound security gateway, or in-the-ether e-security content control rights management services, all, or one. RMail automates email security and e-compliance so that your organization can focus on doing business. Reduce costs and app complexity with the RMail AI-infused e-security layers.

Why We Are Unique

Our features provide the best user experience. Our prices make us the most affordable. And our services connect elegantly inside your existing email programs and business systems.

Breadth of Services
RMail empowers you; all of the functionality you need, all in one installation onto the platforms you're already using -- email encryption, certified proof, AI-infused human e-security error prevention, in-the-moment personalized e-security training, and much more.

Simplicity
We understand that the power of e-security technology resides in user adoption. That is why RMail is built with AI that automatically sensitizes users to today's e-security and e-compliance needs, subtly nudging them to make the right email-related e-security decisions. Securing your business has never been easier.

Legal Proof®
Each message comes with a Registered Receipt™ email record; the global standard for court-accepted, timestamped proof of secure delivery of emails — and its attachments. This record is durable (it may be forwarded, retaining its self-authenticating integrity), and is self-contained (it does not require any other record to be stored anywhere).

Friendlier Service
Excellent technology is key, outstanding service is gold. Getting both in a single package is pure bliss. Our teams are more knowledgeable and friendlier to work with. That is why our customers rate us with 99% satisfaction scores and 5-star accolades.

Thank you, to the more than **25 million people** the world over, who have put their trust in our team and technology, **since 2000**.
